	20" Large	IT114513
	20" X-Large	IT114894

SteamGlove hand protection, made with SteamGuard® barrier material, is able to withstand hot oil and temperatures up to 225°F without melting. This watertight, knitlined glove offers excellent protection from chemicals, steam, hot water and liquids that can pose the risk of severe burns.

The SteamGlove has a textured finish that delivers a reliable grip in even the most oily and wet applications, and offers dexterity and flexibility not found in any other glove available. With its interlock liner, the SteamGlove also offers an added degree of comfort and protection. The glove is made from materials that are in compliance with FDA's 21 CFR, parts 170 to 199, making it ideal for food handling and preparation.

- Withstands temperatures up to 225° F
- Great for dishwashing, changing steam pans, and other hot and wet kitchen tasks
- Material is watertight knit-lined SteamGuard barrier material, rough texture for additional grip
- Cut Resistance – ISEA level 1
- Puncture Resistance – ISEA level 2
- Abrasion Resistance – ISEA level 5
