

CRG-5.2™
by DayMark®

CUT RESISTANT GLOVE

Providing proper cut protection in the kitchen is an essential part of running a food service establishment. The DayMark CRG-5.2 offers a balance of quality and affordability, with a rugged 13-gauge seamless construction, high-performance synthetic fibers and reinforced regional (zonal) knitting in key strike areas, resulting in ANSI A5 (in blue reinforced knit areas) and A2 (in gray knit areas) cut resistance. Ambidextrous and color coded to indicate size, the CRG-5.2 offers extreme comfort and fit for optimum performance during food prep.
