

HexArmor®

HELIX 3033 CUT PROTECTION GLOVE

Innovation intertwined with safety. That's the DNA of the Helix® Food Safe Series. The Helix® 3033 features a specialized plaited knit with 13-gauge polyester fibers engineered to stay intact, thereby preventing any glove particles from contaminating food, and an inner HPPE/ fiberglass blend for added comfort and ANSI/ISEA Level A6 cut protection.

The 3033 is food-safe and can be used by itself or as an underglove (with an appropriate top-glove solution).
